

About Leadership Connection

Leadership Connection was founded in 1995, by Kathleen Schafer and her vision to serve individuals, groups and organizations in fully realizing their leadership potential. Everyone aspires to master the art of change—what we too few of us understand is that change one wishes to see in the world begins with the individual and radiates out. Only by unleashing our individual talents and strengths are we able effectively work with others to create the lasting and vital change in our lives that we all desire.

During the past 20 years, Kathleen has developed an effective and innovative approach to leadership that leads to real-world results while creating fulfilling lives for the leaders who subscribe to this approach. Leadership Connection’s strategy is built on simple concepts designed to reveal the truths hidden inside each person. Our goal is to strip away the false beliefs that are keeping people from reaching their potential and to do so in a way where they quickly become self-sufficient and do not become “consultant dependent.”

Walking our Vision

Change in any group or society begins on a personal level through empowering individuals. Empowerment radiates out, positively impacting others. To facilitate this process, we train our clients using our Leadership Model:

- Understanding Your Authentic Self – Owning Your Power
- Identifying Your Desired Change
- Aligning With Your Purpose
- Cultivating Your Leadership Skills
- Developing Group Efficacy
- Achieving Real World Results

Coaching, Teaching, Speaking

To best meet our clients' needs, Leadership Connection begins by creating a Leadership Development Plan incorporating one or more of the following approaches:

- **One on One Coaching** – Sessions take place in person, via-phone or online to assist you in developing your leadership skills.
- **Group Trainings** – Single or multiple sessions are customized for each group or organization
- **General Seminars** – Topical presentations are offered to groups along with occasional appearances open to the general public.
- **Online courses** – Self-paced leadership course are available through the Leadership Connection web site.

The Staff

Our quailed, dynamic and diverse team at Leadership connection is able to help you achieve your goals and strengthen your leadership skills. You can learn much more about the Leadership Connection staff by reviewing the web page.
